raid mode character albert wesker

THE DEFINITIVE WEKSER REVIEW AS FOLLOWS...

Other reviewers have downplayed exactly how ridiculous the dodge cancel is so I'm gonna lay it out for everyone.

When using a magnum, you can ignore the ridiculously long animation that follows him firing by... dodging.

When reloading you can ignore most of the animation on everything but shotguns by... dodging.

When using a sniper rifle (Bolt action) you can ignore the bolt animation by... dodging (AND ignore recoil)

When knocked on the ground you can ignore being on the ground by instantly standing up by... dodging.

When an enemy is on the ground you can ignore most of his melee knockdown animation by dodging, more importantly you can cycle 2 or 3 of these in a row on the same enemy or multiple before they get up.

The dodge cancel is absolutely broken as balls, if you are dedicated to animation canceling he is by far the best character in the game.

IF you want to just shoot stuff... okay he's probably not for you then.. My all time fav character in the series

Ultimate Badass and also deserves his own game. A very OP character if you know how to use him. Or just get him for the unbelievable broken Dodge cancel skill, that in short allows you to cancel out of EVERYTHING!!!!!!! Also Bonus melee damage, because he is Albert Wesker.. 10/10 best raid mode character would 10/10 again. Would you like to saturate your Raid with Albert Wesker?

- Yes, please.
- Of course!
- COMPLETELY

Seven minutes. Seven minutes is all I can spare to play with you.. What a huge disappointment, I was expecting Wesker to have some kind of superhuman abilities inculded in this DLC but NO!!! atleast hunk DLC got the invisible ability, I will not recommend this DLC, its not worth it.. Is Wesker, for \$2.50. Nuff said.. His passive Evade Cancel is op,actually one of the the most crucial skills in competitive play,and he is Wesker!!

10V10 Full Burst+Evade Cancel=OP. It's wesker, I don't mind paying \$2.50 to play him. The game is only \$25 it's not like we payed full price. so we can let a couple DLCs slide. You get more than you payed for with this game.. Its Albert Wesker! One of the most fastest BADAS-S Character in RESIDENT EVIL SERIES!. Neat but it's 2 dollars.
